FIRST RESPONDERS
Product Catalog

WELCOME TO KNOX

Since 1975, the Knox Company has developed innovative rapid access solutions for first responders, with products that provide fast, safe and secure entry into commercial, industrial and residential properties; while minimizing damage and maximizing safety.

We're proud to now offer, the Knox eLock System™ with technology that incorporates an innovative eKey that provides a cost-effective access control process to protect vital assets. It's designed for maximum security, access and complete accountability while delivering ruggedness and quality.

All products are assembled in the USA in a Phoenix, AZ facility. Knox is a woman-owned business.

More than 14,000 fire and law enforcement departments depend on Knox products to gain access into over one million buildings/properties.

TABLE OF CONTENTS

RAPID ACCESS SOLUTIONS

for first responders

Knox products minimize critical access delays and forced entry damage/injuries.
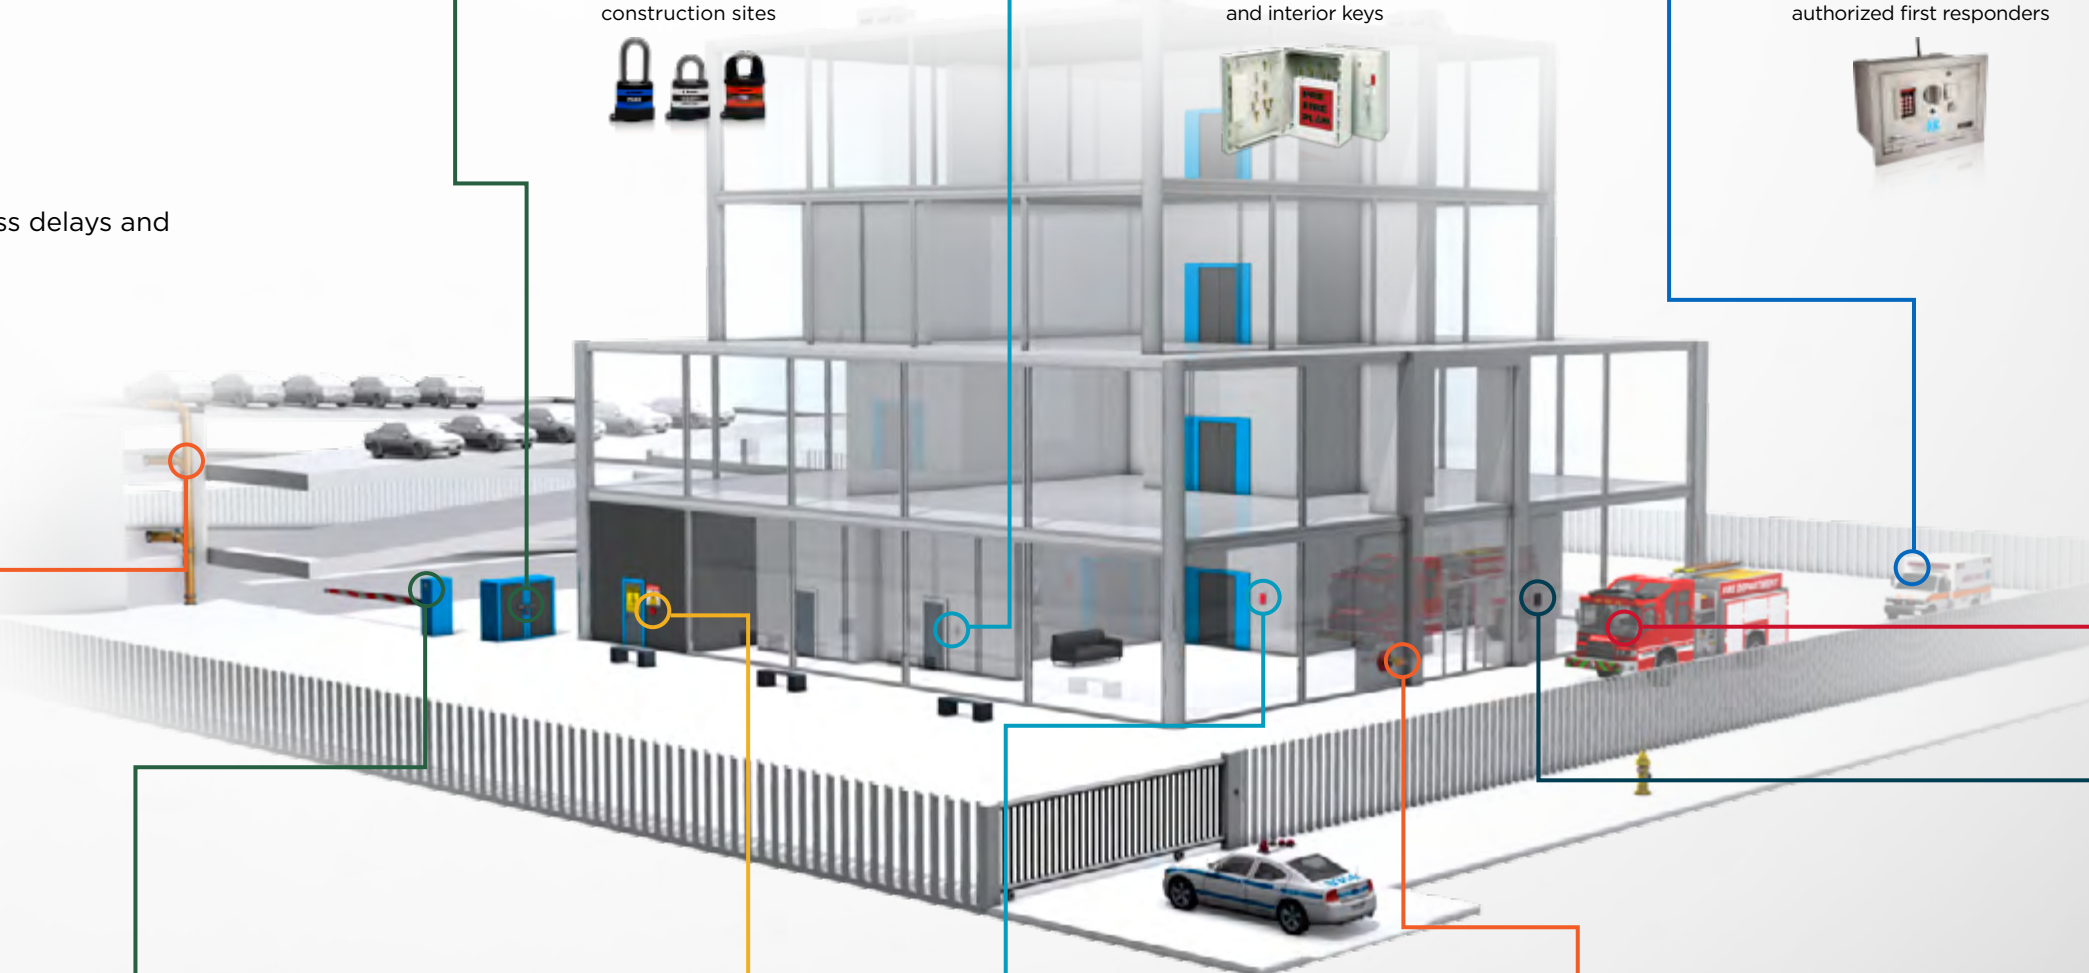

PERIMETER ACCESS
KNOX PADLOCKS®

Quick access into secured multifamily property areas, community gates and temporary construction sites

INTERIOR ACCESS
KNOX DOCUMENT CABINET™

Gain immediate access to hazardous material data, critical emergency response documents and interior keys

NARCOTICS CONTROL
KNOX MEDVAULT®

Reduce drug diversion risks and increase controlled substance accountability with secure storage and access limited to authorized first responders

KEY CONTROL
KNOX KEYSECURE®

The highest level of master key control and retention with flexibility, security and accountability

FDC PROTECTION
KNOX STANDPIPE LOCK®

Safeguards discharge standpipes and wall hydrants ensuring operational integrity

BUILDING ACCESS
KNOXBOX® | KNOXVAULT®

Rapid access key boxes eliminate the need for forced entry, minimizing critical delays, injuries and property damage

PERIMETER ACCESS
KNOX GATE & KEY SWITCH™

Overrides electric gates in residential communities, parking garages and industrial gated areas

POWER CONTROL
KNOX REMOTE POWER BOX™

Remotely operate a shunt trip breaker to safely remove or isolate power from a building or equipment

INTERIOR ACCESS
KNOX ELEVATOR BOX™

On-the-spot retrieval of elevator and interior keys

FDC PROTECTION
KNOX FDC LOCKING CAPS

Locked FDC caps protect against damage, vandalism and debris

KEY CONTROL

KNOX eLOCK CORE™

Powered by the Knox eKey, the eLock core is constructed to withstand physical stress and harsh weather conditions. It can be retrofitted into most Knox products and eliminates expensive rekey costs resulting from lost keys. It's maintenance-free and proactively prevents forced entry caused by improperly maintained lock cores. Holds one (1) lock code and stores up to 140 events.

FEATURES:

No wiring

No batteries

Electronic lock core

Design protects from dust and dirt

Electronic lock, retrofit

Dimensions:
0.87"D x 1.73"L

KNOX eKEY™

The Knox eKey elevates master key control by remembering and reporting where and when it was used. It offers enhanced security features to prevent unauthorized use. eKeys can be assigned multiple lock codes, eliminating guesswork and streamlining access for users with multiple master keys or mutual aid arrangements. When used with the Knox KeySecure 6 or KnoxDock and KnoxConnect, it provides a complete solution for accountability and control in KnoxBoxes equipped with eLock cores.

FEATURES:

Deactivation capability if lost or stolen

Manages up to 100 lock codes and stores 2,500 access events

Rugged, water-resistant construction

Programmable electronic key

Dimensions:
3.25"H x 1.29"W x 0.92"D

KNOXDOCK™

The KnoxDock is a flexible, light duty key programming, charging and retention solution used with a PC or tablet. It offers administrators and inspectors an office-friendly key retention alternative to the rugged, mobile KeySecure 6. Managed by an easy-to-use PC app, the KnoxDock provides connectivity between KnoxConnect and the eKey for key activation and audit trail upload.

FEATURES:

Virtual key retention

Compact

Lightweight

Key programmer and recharger

Dimensions:
4.5"H x 2.0"W x 1.25"D

KNOX KEYSECURE® 5

Secure dual master key retention system utilizes the cloud-based KnoxConnect management system to configure, program, manage and monitor users. Keys release with a secure individualized PIN code.

FEATURES:

- KnoxConnect's cloud-based management system for eLock products, tracks keys/access, users and provides reports
- WiFi or Ethernet-Enabled
- USB Port
- Secures up to 2 Mechanical Knox Master Keys
- Access Key using SecurePIN or user PIN
- Records up to 16,000 audit trail events
- Stores up to 5,000 user PIN codes
- Holds the universal Knox FDC Wrench

KeySecure 5 secures two mechanical keys

Dimensions:
6.0"H x 4.25"W x 3.5"D

KNOX KEYSECURE® 6

The highest level of master key control and retention with flexibility, security and accountability. Both a mechanical master key and eKey are locked and only accessible using user specific PIN codes. The KnoxConnect cloud-based management system configures and manages the eLock System devices and users.

FEATURES:

- KnoxConnect's cloud-based management system for eLock products, tracks keys/access, users and provides reports
- WiFi or Ethernet-Enabled
- USB Port
- Secures one Mechanical Key and one eKey
- Access Key using SecurePIN or user PIN
- Records up to 16,000 audit trail events
- Stores up to 5,000 user PIN codes
- Holds the universal Knox FDC Wrench

KeySecure 6 secures both an eKey and mechanical key

Dimensions:
6.0"H x 4.25"W x 3.5"D

BUILDING ACCESS

KNOXVAULT® 4400

The 4400 is the largest exterior rapid access key lock box available. It secures up to 50 keys, access cards, entry items and more. For additional security, use the optional Tamper Alert feature and purchase the recess mounted model.

Recessed Mount in Black

Dimensions:
Recessed Mount: 9.5"H x 9.5"W Flange

Surface Mount in Black

Dimensions:
Surface Mount: 7"H x 7"W x 5"D

OPTIONS:

- eKey and Mechanical Key models available
- Knox Tamper Alert
- Multi-Purpose Electrical Switch
- Recess Mounting Kit for New Masonry Construction
- Recess or Surface Mounting
- Single or Dual Lock

CAPACITY:

Secures a combination of these items:

- 50 Keys
- Access Cards
- Entry Items
- FDC Keywrench

COLOR OPTIONS FOR BOTH THE 4400 AND 3200:

- Aluminum
- Black
- Blue – Law Enforcement ONLY
- Dark Bronze

CERTIFICATION:

UL LISTED

UL 1037
UL 437
UL 1610
UL 1332

This product has passed UL's rigorous security testing

KNOXBOX® 3200

The 3200 holds up to 10 keys and/or access cards and entry items. For additional security, use the optional Tamper Alert feature and purchase the recess mounted model.

Recessed Mount in Black

Dimensions:
Recessed Mount: 7"H x 7"W Flange

Surface Mount in Blue

Dimensions:
Surface Mount: 4"H x 5"W x 3.75"D

OPTIONS:

- eKey and Mechanical Key models available
- Knox Tamper Alert
- Multi-Purpose Electrical Switch
- Recess Mounting Kit for New Masonry Construction
- Recess or Surface Mounting

CAPACITY:

Secures a combination of these items:

- Up to 10 standardized keys.*
- Access Cards
- Entry Items

*Four to six keys if using large keys or key tags

FDC PROTECTION

KNOX FDC LOCK™

Locking FDC caps safeguard the integrity of fire sprinkler systems and keep debris out, while eliminating vandalism and other damages. Knox FDC Locks ensure vital high-pressure water connections are ready and functioning when needed.

2.5" Diameter, Male Locking Cap with Swivel-Guard™ Enhanced Protection

2.5" Diameter, Male Locking Cap

1.5" Diameter, Male Locking Cap

KNOX STORZ LOCK®

Storz Locks protect large diameter FDCs to ensure reliable water connections and prevent fire hydrant water loss or theft.

KNOX STANDPIPE LOCK®

Protect the discharge side of wet and dry standpipes with the heavy-duty Knox Standpipe Lock. The brass threaded stainless steel cap locks into place to ensure a reliable connection and strong water pressure.

5" Diameter

4" Diameter

2.5", Female Locking Cap

NARCOTICS CONTROL

KNOX MEDVAULT®

Reduce drug diversion risks and increase controlled substance accountability with secure storage and access limited to authorized first responders. Data gathering is streamlined for regulatory and licensing compliance reporting. Control access through the use of authorized PIN codes.

Large Capacity Recessed Mount

Exterior Dimensions: 10.75"H x 14.12"W x 10"D

Interior Dimensions: 8.75"H x 11.25"W x 6.62"D

Available in both recessed and surface mount options

Small Capacity Surface Mount

Exterior Dimensions: 6.75"H x 9"W x 6.5"D

Interior Dimensions: 6.25"H x 8.5"W x 3.12"D

Available in both recessed and surface mount options

FEATURES:

- KnoxConnect's cloud-based management system for eLock products, tracks keys/access, users and provides reports

- WiFi or Ethernet-Enabled

- Automatically connects to network for upload of transaction history

- Use SecurePIN, single or Dual PIN for access

- Records and stores up to 16,000 events

- Holds up to 5,000 unique PIN codes

- High security door status monitors

- Available with swing or drop down door

PERIMETER ACCESS

KNOX PADLOCKS®

Utilize the same Knox Rapid Access System's master key with padlock options that provide ingress into multiple environments and other important locations. Exterior heavy-duty padlocks (Models #3781, 3782, 3783) are built with a stainless-steel shackle and provide ingress on pedestrian gates, storage areas and into gated communities. The shrouded all-weather padlock (Model #3784) provides additional security against pry and cut attacks.

SOFTWARE

KNOXCONNECT™

The KnoxConnect Management System is a cloud-based system used to program and manage eLock devices and users. It provides the ability for administrators to program devices, update PIN codes, authorize users, deactivate keys, view device status and create comprehensive audit trail reports from the web.

FEATURES:

Cloud or locally* hosted

Automatic updates

Supports mechanical and eLock systems

Enterprise Security

KNOX SECUREPIN™

Engineered to the highest level of flexibility, security and accountability, Knox SecurePIN™ delivers the next generation of key access, allowing dispatchers to grant temporary access to keys without requiring personal codes or management of personnel in the software system.
